

REMARKS

This amendment to claim 1 corrects an obvious and inadvertent omission from the examiner's amendment and does not alter the scope of the claim as agreed during the telephone interview. (Claim 14 was renumbered as claim 1 by the Examiner.) Prompt entry is respectfully requested.

Neither this amendment nor the examiner's amendments are intended to narrow the claims for any reason relating to patentability, and the applicant reserves the right to pursue the subject matter of any claim as previously presented in a divisional application. All amendments find support in the application and drawing.

Respectfully submitted,
